TECHNICAL HUB www.technicalhub.io

T-hub trains students in various disciplines beyond technological labels besides equipping them with skills and creativity required for advancement in their careers. Through its various programs, T-hub provides adequate opportunities for an unmatched knowledge base by imparting all necessary skills to students and makes them job ready. Various programs of T-hub include:

• T-Connect

A platform that creates technology exposure.

• Skill Up

A unique opportunity to enhance one's technical skills.

• Makers Square

Technology dissemination corner.

• CODE <HEAT>

Efficient way to utilise summer break by attending various technological trainings.

• Pupa

A step by step journey to a successful career.

• Project Space

One step closer to dream job.

• In-Campus Internship

Imparting Industry Exposure.

• Target

No more excuses - You name it, Target has it.

• T- Shaped Engineer

Don't chase after jobs, Let the jobs chase you.
