Report on "Awareness program on Reduce, Reuse, Recycle (R.R.R.) of waste for pollution-free Environment."

Date: 23-11-2021

Location: Z.P.P. High school, Nayakampalli. (Outside campus)

No. of students participated: 80

No. of faculty participated: 4

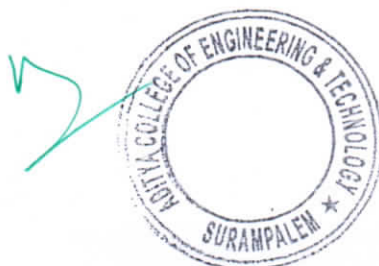

Name of the Chief Guest: Mr S. Siva Charan

Pollution was growing as a result of industrialization and population growth. Pollution levels would be lowered if created garbage was reduced, reused, and recycled. The ACET Eco-Club – Eco Corps held an "Awareness programme on Reduce, Reuse, and Recycle (R.R.R.) of wastes for pollution-free Environment" at Z.P.P. High School, Nayakampalli, to raise awareness among the society's roots, namely school kids. Mr S. Siva Charan (H.O.D. of Civil Engineering Department) served as a resource person for the programme.

The hosts of the event were explained and motivated the students about waste reduction via Reduce, Reuse, and Recycling (R.R.R.). This programme comprised 46 high school students, 34 college students, and four faculty members.

In this program students and enthusiastic faculty members and some villagers were participated actively and volunteer and made the event a grand success. Most of the pupil and people impressed and motivated and promised themselves to save environment by following strategies mentioned and intoned in the program.

At the conclusion of the session, the school's headmaster spoke to the kids about the program's significance and provided valuable comments on the event.

Report on "Plantation and distribution of saplings at Nayakampalli."

Date: 23-11-2021

Location: Nayakampalli village. (Outside campus)

No. of students participated: 60

No. of faculty participated: 4

To protect the environment by planting and distributing the saplings outside the campus. ACET The plantation and distribution of the sapling drive were conducted by Eco-Club – Eco Corps at Nayakampalli village.

Eco Corps went to the village and located the spots for the plantation. A total of 34 students was involved in this event and planted around 20 tree saplings at different locations in the village.

The main speakers mentioned the importance and uses of plantation of saplings and how they will protect the environment. The circle and process of plantation, cloud formation, weather and climatic conditions and rain fall was explained and the people were impressed and learnt the climatic conditions and changes due to global warming. They came to know the importance of plantation and forestation.

Here the students interacted with the village people and requested to take responsibility for the planted saplings. And also, around 25 saplings are distributed to the village people. During this event, students have interacted with the village people and explained, motivated them about the importance of the plants and plantation.
